

MEET THE TEAM

RANDY SCHOLZ

Teaching Professional

Golf is a fun and challenging game with proper fundamentals including grip, posture, take-away and swing. Having played golf for most of my life, I enjoy teaching and helping players improve their game.

I believe with the proper golf fundamentals and practice; beginners, regular-players and advanced players can improve their game making it easier and more fun. My goal is to provide lessons to simplify each element of the swing.

I have given many golf lessons and clinics, written several golf-swing booklets and provided instructional handouts. I am continually learning and advancing my own personal golf game as well as instructing other golfer's with their swings, pitching, chipping, putting and sand-bunker shots.

I also can provide advanced lessons on how to drive the ball farther, how to draw and fade the ball, short game distance accuracy, course playing strategy, and on-course playing lessons.
